"Four 'escape tales of airmen in the Korean War,' all of whom survived crashes, wounds, burns, cold, hunger, thirst to escape Communist soldiers and find help from friendly Korean civilians and soldiers. There was little chance for the high excitement and nonchalance of some European escapes. The Communists were often brutal; the land was rugged, barren, hostile. These are stories of unrelieved hardships and sheer grit. The style is undistinguished but the experiences are dramatic." Horn Bk

"An American woman met and married an aristocratic Japanese diplomat in Washington in 1937. Her husband worked for peace and, with his colleagues, had planned the cable to the Emperor which might have averted the Pearl Harbor attack. After Pearl Harbor, she went with her husband to Japan. As an intimate picture of the Japanese in war, this is informative; as vignettes of Japanese statesmen and diplomats who disagreed with the militarists, this is heartening; but its greatest appeal is as the human story of a mixed marriage where love overcame all the problems. Older girls—and some boys—will like and respect Mrs Terasaki and her family." Horn Bk

The Arabs; illus. by Leonard Everett Fisher. World Pub. 1958 124p illus maps $2.95 **953**

1 Arabs

"An excellent book on the ethnological and cultural patterns of the Arabian peoples. A typical desert scene is presented as a frame of reference for a discussion of Bedouin culture and nomadic pattern. The history of Islam is related to other monotheistic religions and to the migrations of groups in early Arabian history; the importance of the Arabian contribution to the preservation of western civilization is stressed. A brief last section discusses the Arab world today, the struggle for Arab unity, the conflict with Israel, and the political and economic relationships with world powers because of Middle Eastern oil. Except for one sentence mentioning the establishment of an Egyptian Republic in 1953, the history of the last decade is not given, and some of the discussion of the Arab world today tends to simplify matters. However, the book is, as a whole, useful; a chronological chart that correlates events in the Arab world (from 500 A.D.) with other world events is especially important." Chicago. "An excellent book about the Aztec culture. . . . After a broad examination of Aztec history and civilization, various aspects of Aztec life are described: agricultural organization and marketing, ceremonial rites, the calendar and writing, religion and government. Although sedate, the writing is smooth and the book is well-organized. Index, bibliography, and chronological chart are appended." Chicago. Children's Book Center

"The absorbing, effectively illustrated account is only thinly disguised as a narrative centering on an Aztec boy." Booklist

1 U.S.—History—Colonial period

First published 1931. In the 1961 edition some textual revisions have been made in the light of recent historical research; new material has been added, mainly on social life and the Revolutionary era; and the bibliographical notes have been brought up-to-date

"As one of the main purposes of the work is to show how an old civilization was adapted to a new environment, considerable space is devoted to economic and social life, political institutions, and the problems growing out of the relations between the dominions and the homeland. A special effort has also been made to acquaint the reader with the most outstanding figures in the early history of our country. To this end numerous character sketches have been drawn, which portray the personality of the leading actors in the colonial and Revolutionary drama." Preface to the first edition

The material is derived from official documents, war records, private letters and public archives, some quite recently made available. It is presented with the narrative skill and occasional humor of an able biographer and historian thoroughly qualified to handle these successive and sometimes repetitive vignettes without losing their human interest or offending retrospective patriots or tories at this late date. Kantor, MacKinlay

j Gettysburg; illus. by Donald McKay. Random House 1952 189p illus map (Landmark bks) $1.95 **973.7**

1 Gettysburg, Battle of, 1863

"The story of the terrible battle which might have meant victory for the Confederacy and the end of the Civil War had General Lee, at the end of the first day, ordered a final attack against the wounded enemy. In describing the battle and writing of those who were involved in it, the author attempts to answer the questions concerning Lee's action: Why did he not attack? What would have happened if he had?" Pub W

"In a dramatic, seemingly on-the-spot account, the author presents a well-rounded view of that crucial battle—its effects on the citizens of Gettysburg, the part played by the common soldiers as well as the generals, the movements of both armies, the defeats and victories. Good reading as well as valuable material on the Civil War." Booklist

A book of "high caliber [which] will certainly be popular reading for the 8-to-12-year-olds. Mr. Kantor has done a most interesting portrayal of events immediately before, during and after the surrender of Lee to Grant. The colossal and sad significance of this event is beautifully handled." Pub W

Drawing on actual source material, the author's aim was "to tell the story of the war objectively, with understanding and sympathy for both sides; to explain, simply, the strategy of the war; not only to give accounts of major battles, but to translate these into human terms. He also discusses the songs that were sung in the North and South, tells how they were inspired and what they meant." Publisher's note

The author has explained and simplified the famous battles of the war and their significance, as well as describing colorful personalities on both sides. (Publisher)

"In spite of the window dressing in the form of impressive action pictures, this is at best a bare, undistinguished recital of campagins and battles. However, because the book is authoritative and because there is not much factual material on the subject, it will be useful, especially in connection with school assignments." Booklist

1 U.S.—History—Civil War

"In his preface Carl Sandburg refers to this volume as 'carved mainly from the pages of the four-volume book Abraham Lincoln—the war years. . . . For the sake of brevity and sequence the author has rewritten some sections of the larger work . . . on occasion adding new text.' 'Carved' is a good word. Comparison with the larger work shows that whole paragraphs have been lifted from the chapters having to do with the campaigns and battles of the war, omitting all extraneous matter and adding connecting paragraphs where needed. May be read by some to whom the four volumes looked formidable or by others interested primarily in military history." Wis Lib Bul

"An absorbing account of the history of New Plymouth that deals with the early beginnings of the Separatists movement, the voyage of the 'Mayflower,' the difficulties faced by the first settlers, and the political, social and economic development of the colony up to the time of its absorption into what is now the State of Massachusetts. Many legends and misconceptions are explored, and exploded, and the colonists emerge as infinitely more interesting than the typical history book credits them with being. The writing has a clarity and simplicity that will enable young readers to follow it with ease, plus a maturity that challenge them to look with greater depth of understanding into all that made up the people and events of the period. This is history at its best for young people or adults." Chicago. Children's Book Center

"A descriptive tour of the restored capital of the British Colony of Virginia." Title page

We see the famous buildings and gardens of this colonial capital as they appear today and learn the significance of the principles under which the restoration was conceived and executed. We discover how this eighteenth-century city looked at the height of its glory and how the magnificent formal gardens were planned and created. We visit the public buildings that witnessed so many stirring moments in the history of our democracy. (Publisher)

"Although a somewhat misleading title, in that the legend of Evangeline is touched on very lightly, this is, nonetheless, an absorbing account of the history of the Acadians. The story begins with the first settlement of Nova Scotia, traces the growing antagonism between the French settlers and the British after the latter had gained control of the island and the dispersal of the French throughout the United States, France and England, and describes their final regathering in what is now Louisiana. The sources which Longfellow may have used as a basis for his poem are mentioned and the book should make interesting supplementary reading for classes that are studying 'Evangeline.'" Chicago. The descriptions of various facets of frontier life, among them the California gold rush, the Mormon War, and the development of overland coach travel, demonstrate that color and interest need not be divorced from historical facts." The book is divided into sections about native peoples, the period of conquest by Spanish and Portuguese, their establishment of colonial empires, the emergence of South American nations, and the South American scene today. The bibliography is divided to correspond with the five sections, and a lengthy relative index is appended. The author has brought together in impressive fashion social, political, cultural, and economic aspects of history, but the text emerges as overburdened with names and dates of centuries of European exploration and colonization. Section five, South America Today, is less concentrated than preceding sections and can serve well as a guide to the contemporary scene." Chicago. Children's Book Center

"This is a novel, based on fact, of the West in the days when the first wagon trains were pushing their way beyond the Rockies, Hudson's Bay men ruled in Oregon, and the Indian fought to keep his land. It is the true story of an American doctor and his wife in the frontier wilderness. Dr. Marcus Whitman and his bride were almost the only white people in the Oregon wilderness when they arrived. The Whitmans learned the language of the Indians, shared their short supplies with their neighbors, nursed them through epidemics. But Indian resentment flared at the unjust actions of some other white people, and they began to lose faith in white man's medicine. Marcus needed help, but help wasn't forthcoming. Huntting

"In his new book, 'The Apostle,' Sholem Asch has written a book which should stand beside 'The Nazarene.' Its erudition, its essential reverence for the two faiths concerned, its scholarly and dramatic portrayal of the Jew who spread the gospel to the gentiles will call forth the respect of every civilized and intelligent reader. The story of the life of Paul, as told by Mr. Asch, is one that could be powerfully effective in breaking down the barriers of prejudice and ignorance." N Y Her Trib Books

"A wealth of incident and historical detail make this novel very long. . . The third part of the narrative is in the form of a gospel by Judas Iscariot." Booklist

"Judged purely as a novel, The Nazarene is a superb achievement. Even on the factual side, a work such as Papini's Life is thin beside it. This is because Mr. Asch has taken an infinite amount of trouble to build up an historical background against which the figure of Jesus may move authentically, with that sense of reality which we should expect of fiction as of life." "Having led opposing forces in a war, the grandsons of Genghis Khan, Arik-Buka and Kublai, meet as enemies. They recall their boyhood and their induction as warriors. Arik-Buka has remained a barbarian, while Kublai has become convinced, as his power has grown, that the right way to govern is with kindness and with respect for the cultural heritage of the conquered peoples. . . . Despite the grimness of the harsh life of the Mongolian steppes, the strength and sincerity of the book are deeply moving. The writing is rather angular and the tone serious, but neither is particularly unsuited to the subject matter." Chicago. Children's Book Center

1 Archeology—Fiction 2 Egypt—Antiquities—Fiction

First published in Germany 1959

"An unusual approach to the story of archeological discoveries in Egypt. Megdi, son of a contemporary Egyptian archeologist, becomes friendly with a learned old man who claims he lived thousands of years ago. Together they go in search of a new site, and in the course of all their talks and explorations there emerges a flood of detailed information about discoverers of past treasures. All of the famous archaeologists are described as seen by an eye-witness. As they visit the sites, the old man tells Megdi what the paintings and hieroglyphics show about the lives of the Pharoahs. The past is made truly vivid in these descriptions, but the heavy saturation of historical detail may limit the audience for the book. . . . It brings to life the people of the past as do few books. . . . The colored plates are stunningly beautiful; a list of dynasties and a glossary are appended." Chicago. Children's Book Center

She guides him on a tour of the cooperative commonwealth which has come into existence. Labor is the cornerstone of society; all work and share alike. The State is the Great Trust. 1 Rome—History—Empire, 30 B.C.-476 A.D.—Fiction

"A historical novel of the third century which is set at a military outpost near Lake Geneva. The great Roman empire is crumbling, soon to be over-run by hordes of barbarians, and three men—Valerius, the good soldier; Demetrius, the migrant trader; and Vinodius, the Roman governor—face the danger in entirely different ways." Retail Bookseller

"Bryher notes with perception the breakup of the outer reaches of Rome and draws a parallel (by inference) to modern conditions of politics and aggrandizement. Her writing, as usual, is deft and impressive, as exemplified in her treatment of the major characters, all of whom knew (however mutely or eloquently) that the old order was changing. Limited in appeal." Wis Lib Bul

An attractive edition of a book which appeared in 1910 under title: The great diamond pipe

"David Crawford, dispatched by a Scotch mercantile concern to take charge of a store on the high veldt in South Africa, is the shrewd hero of this tale which abounds in adventures that attend the foiling of a Kaffir rising. Usually a romance is compounded of love and adventure; this one is unique for its absence of love. There is not so much as a woman's shadow across its pages, with the possible exception of the mother's hand that administered to the hero sharp chastisment at the end of a youthful escapade. The story is a spirited one full of action and atmosphere." Book Rev Digest

The life of Wang Lung unfolds naturally, marches steadily on as the seasons of seedtime and harvest. There are no forced situations, or false conclusions. "The simple story relates principally to two young people of Grecian origin, Glaucus and Ione, who are deeply attached to each other. The former is a handsome young Athenian, impetuous, high-minded, and brilliant, while Ione is a pure and lofty-minded woman. Arbaces, her guardian, the villian of the story, under a cloak of sanctity and religion, indulges in low and criminal designs. His character is strongly drawn; and his passion for Ione, and the struggle between him and Glaucus, form the chief part of the plot. . . . The book, full of learning and spirit, is not only a charming novel, but contains many minute and interesting descriptions of ancient customs; among which, those relating to the gladiatorial combat, the banquet, the bath, are most noteworthy." "The story of the development of a great American singer. The old broken down music master in Moonstone, Colorado, told Mrs. Kronborg, wife of the Swedish minister, that the little girl, Thea, had talent. From that moment Thea's career was determined on. She must practice four hours a day and become a piano teacher. It is not until she goes to Chicago to continue her studies that she learns that her future lies in her voice. Three men believe in Thea, Ray Kennedy, the freight train conductor, Howard Archie, the Moonstone doctor, and Fred Ottenburg, the millionaire brewer. Each in his way helps her, and she justifies their faith. She leaves Moonstone far behind her, but she never gets away from its influence. It is the steadying power that keeps her at her work, and as she grows great in her art, particularly when she sings the Wagnerian roles, those who know her best see in her more and more the likeness to her mother, who kept the Swedish parsonage and brought up seven children." The main theme of the book is the conflict between Jenny's personal life, especially her intense longing for marriage and a home, and her professional life, with its equally strong ties. Although the author has tended to somewhat gloss over the personality traits of both Jenny Lind and Barnum that led to the final dissolution of their partnership, she has created an entertaining, warmly sympathetic picture of the two. In his twelfth year, Santiago was abruptly claimed by his Indian relatives and returned to the village of his father. For several long, hard years thereafter he lived the impoverished life of an Indian before he was found by Jim's father and taken to the banana plantation . . . but Santiago decided instead to become a teacher and to return to his father's village to teach the children there to become 'good Indians in today's world.' s A passage to India. Harcourt 1949 320p (Harbrace Modern classics) $2.50 **Fic**

1 British in India—Fiction 2 India—Fiction

First published 1924

The story concerns the reactions of two newcomers—Adela Quested and Mrs. Moore, a young and old woman—to Chandrapore or to as much of Chandrapore as holds India. In the background play the vague colors—romantic and unromantic of India and Anglo-India, and the gross misunderstandings that must arise when two races live together—rather apart than together—conscious of an urge to transplant a 'civilization' and of as vigorous an urge to keep one's own. The conflict of these several points of view, in the novel, wells up into a noisy tempest when Miss Quested believes she has been wantonly attacked by a heretofore respectful Indian, Dr. Aziz, in one of the Marabar Caves." "The simple joys of life—Water Rat's pleasure in messing about in boats, Toad's enthusiasm for caravans and motor cars, the embracing light and warmth of kindly Badger's home, the brave boyish impulse that sent Mole into the winter wildwood—are expressed in terms of the familiar and universal values that lie close to the human heart, yet placed in a world where instinct is the predominating factor. Humour, perception, and poetic feeling are written into a story which is an imaginative springboard for any reader." Books for Boys & Girls

"Lieutenant Peter Hovden, jet pilot in the Norwegian Air Force, self-confident and a trifle conceited, is forced to abandon his ship during a training flight. Though cleared by the Pilot Investigation Board, Peter is haunted by the fear that he will make a mistake in a difficult situation during a formation flight. How his plight is solved through the understanding of his commanding officer and dearest friend makes this one of the most interesting stories of jets and jet flying this reviewer has come across. What's more, its gentleness and understanding of human nature, especially of teen-agers, is most rewarding. Although it might seem a trifle disconnected to some at times, this works into an exceptionally pleasant whole. Its foreign flavor and glossary of jet terminology are most interesting." Library J

"First published in Norway in 1957. The story of two Air Force pilots who are forced to parachute into the winter wilderness while on a routine mission. Geir and Peter come to know each other well as they struggle to survive until help can reach them. The book has, fortunately, the fast pace and mounting tension which can so often be lost in translation. A good adventure story in which the fact that all action and dialogue depends on a cast of two heightens the suspense by stressing the isolation of the men." Chicago. Children's Book Center

"A drama of passion and nemesis, enacted amidst the wild and solemn scenery of an imaginary heath, and animated profoundly by the author's philosophy and revolt. . . . Fatal misunderstandings between dear relatives, and the subtle and imperceptible yielding to temptation which leads to crime and death, are the determining motives. "The tragic history of a woman betrayed. . . . Tess, the author contends, is sinned against, but not a sinner; her tragedy is the work of tyrannical circumstances and of the evil deeds of others in the past and the present, and more particularly of two men's baseness, the seducer, and the well-meaning intellectual who married her. . . . The pastoral surroundings, the varying aspects of field, river, sky, serve to deepen the pathos of stage in the heroine's calamities, or to add beauty and dignity to her tragic personality." At the time the story opens Hepzibah is living in great poverty at the old homestead, the House of the Seven Gables. With her is her brother, Clifford, just released from prison, where he had served a term of thirty years for the supposed murder of a rich uncle, Judge Pyncheon, who was influential in obtaining the innocent Clifford's arrest, that he might hide his own wrong-doing, now seeks to confine him in an asylum on the charge of insanity. This story of Andy, a 12 year old boy, "centers on him and Onion John, who is a squatter of sorts on two garden acres allowed him in a New Jersey town. Onion John's wonderful old-world ideas flavored all their days together, although his superstitions provided occasion for adult questioning. His devotion to a boy who could believe with him made their relationship unique and wonderful, until the maturing boy reluctantly found himself on the side of the elders [who were organizing against Onion John]. Written with extraordinary perception, humor, and vivid turn of speech, in the language of Andy who tells the story, the book has a lingering effect on the reader. 1 Ruth (Biblical character)—Fiction

"The author brings a Biblical character to life by re-creating a background of the land, laws, and customs of the time and by skillful, if sometimes too colorful, elaboration of the Biblical account. In this retelling of the story of Ruth and Naomi, character and motives are made clear—Ruth's devotion to Naomi, her courage as a foreigner in a strange land, and her love for Boaz. An appended note explains some points in the story that are at variance with the King James Version." Booklist

"A romantic fictionized biography of Stephanie de Beauharnais, niece of Josephine Bonaparte, related with colorful period detail. After spending a lonely childhood in southern France with her great-aunt, Stephanie was summoned to Paris by Josephine, sent to a finishing school, introduced to the extravagantly luxurious life of the Tuileries, pampered by Napoleon himself, and was married to Prince Charles, Duke of Baden. Stephanie's gradual recognition of artificiality and unhappiness behind the glitter of court life and her change from a shallow, snobbish coquette to a humble and devoted wife are pleasingly if not quite convincingly portrayed." The first and third parts of this new novel "deal with a few days in April, 1947, in the life of Charles Gray, an assistant vice-president in the conservative Stuyvesant Bank in New York. But the main and perhaps the more significant scenes, as related in the much longer second part of the novel, lie in the town where Charles was born and brought up—Clyde, Massachusetts, some thirty miles north of Boston. "A novel retelling the story of the mutiny on board the English vessel, Bounty, on its return from the South Seas in 1789. The account of the causes of the mutiny and of the subsequent events, including the trial of certain of the mutineers in England, is told in the first person as by one Roger Byam who had shipped as a midshipman and, tho not one of the mutineers, was involved in their fate." "The book is a superb achievement in its genre. It is truly romantic—not sentimental. The writing is remarkable in its fidelity to eighteenth century flavor and refreshing in its charm and beauty. "The action takes place on the Continent in the latter years of the 15th century; and among the historical characters of note introduced are Froissart, Gringoire, Deschamps, Luther, Villon and the child Erasmus. The interest centers in the love story of Erasmus' parents—Gerard, a talented young writer, and the red-haired Margaret, daughter of Peter Brandt. A forged letter convinces Gerard of Margaret's death and he becomes a monk, but after many misadventures, the pair meet again at last." Benét, Reader's Ency

"As a piece of historical narrative, crowded with characters, brilliantly pictorial, and based on indefatigable study, this is one of our finest novels of the Middle Ages, taking the hero from the Netherlands through Germany and France to Italy and Rome, and depicting the state of all these countries (1465-85). Dodd (Great illustrated classics) $3.75 Introduction by Allen Klots, Jr. With illustrations from the life of the author and the setting of the story

Little $5 Translated from the Polish by Jeremiah Curtin; with illustrations from the paintings by Howard Pyle and Evert Van Muyden

First published 1896

A historical novel "dealing with the Rome of Nero and the early Christian martyrs. The Roman noble, Petronius, a worthy representative of the dying paganism, is perhaps the most interesting figure, and the struggle between Christianity and paganism supplies the central plot, but the canvas is large. A succession of characters and episodes and, above all, the richly colorful, decadent life of ancient Rome give the novel its chief interest. The beautiful Christian Lygia is the object of unwelcome attentions from Vinicius, one of the Emperor's guards, and when she refuses to yield to his importunities, she is denounced and thrown to the wild beasts of the arena. She escapes and eventually marries Vinicius, whom Peter and Paul have converted to Christianity." Benét. Reader's Ency

"In this book the author has vividly portrayed life in the Chicago stockyards and his revelations are so shocking and revolting that one cannot read them without being filled with horror. . . . The central figure in the story is Jurgis Rudkus, a poor Slav immigrant, who comes to the new world to make his fortune. He is accompanied on his venture by his father, Ona Lukoszaite the girl to whom he is engaged, and her family. . . . Their experiences are harrowing in the extreme; they are cheated, abused and oppressed on every hand, suffer privations of every kind and find death a blessed release when it finally ends their sufferings. . . . Throughout the story the dominating influence of the trades' unions is strikingly illustrated and the futility of a workingman's struggle against them." Keller's Reader's Digest of Books

"Living in Newellton, a community sharply divided between town and college people, Rosemary Reed, a department store clerk, is frustrated in her longing for campus social life and prestige, bored with the devotion of Reg, a steady young truck driver, and embittered by an unpleasant experience with a self-centered fraternity boy. After serious-minded Sam Lyons, a senior sociology student, comes to room with the Reeds while making a study of the town-versus-college problem, both she and several other young people from both groups reach new understanding of themselves and of each other. "Anne Rumson, overly wise and intuitive for her 17 years, decides to write a book about her friends. In so doing, she presents a sensitive, highly introspective portrait of herself, her relationships with friends and relatives reactions to adult books she has read, her philosophy of life and love. Anne has an amazingly adult attitude towards her own romance which never gets started, but leaves her with an everlasting hurt. Book is for the exceptional girl, a mature 16-17 and older. Writing style is deliberately choppy, giving the impression of a girl writing during free moments of a hurried day." Library J

"Anne's whole summer after high school graduation was one of unhappiness, waiting for Doug's telephone call, the call that never came. For six months she had been sure of his love, then suddenly he jilted her for Dody Coleman, a bit of fluff. When she saw the difficult marriage problems of a teen-age friend she realized Doug was unwilling to assume such responsibilities and her ardor had frightened him away. Not only does the author show a sympathetic understanding of a seventeen-year-old girl, but through her treatment of the emotions and individual desires of Anne's family shows how behavior is shaped by relationship in a family." "The chief figure is the faithful old slave Uncle Tom. Sold by the Shelbys from his old home in Kentucky, where he leaves his wife Chloe, he lives for a time with the easy-going, good tempered Augustine St. Clare, to whose gentle little daughter Eva he is devotedly attached. In the St. Clare household are also the Yankee old maid, Miss Ophelia, and the immortal Topsy, an amusing black 'limb of mischief.' After the death of Little Eva and her father, Uncle Tom is sold to the brutal Simon Legree, by whom he is treated with such harshness that when George Shelby, the son of his former master, finds him, he is dying. "Continues the picture of clerical society with its peculiar humors and foibles. The chief incidents are connected with the appointment of a new bishop, the troubles and disappointments this involves, and the intrigues and jealousies of the clergy: the henpecked bishop, the ambitious archdeacon, and the dean, canons, and others, with their wives. The picture of the eccentric Stanhope family is particularly delicious." Lenrow

The author tells us the story of one Peter Westcott from childhood to maturity, taking us from the grim home in Cornwall to a disreputable Devonshire school, and on to a boarding-house in Bloomsbury, to poverty in the East End, to success in literature, to love and marriage, and at last to a catastrophe by which most would mark the end. "The novel gives an excellent picture of New York 'Society' in the 1870's, the age of propriety and inexorable convention, of clan spirit and tribal solidarity in support of prescribed amenities. The author lays bare the destructive powers of social codes when confronted by an exceptional person. A woman who has incurred scandal is loved by a man who has sufficient vision to penetrate the crust of conventicnality but has not quite the courage to break with the conventions. . . . Later, when [this man's] children are full grown, he has the satisfaction of seeing them step out freely on the road that had been denied him." Lenrow

Author, Title, Subject, and Analytical Index

Author, Title, Subject, and Analytical Index

This index to the books in the Classified Catalog includes author, title, subject and analytical entries, arranged in one alphabet. Added entries for joint authors are also included.

References in the Index are to Dewey Decimal Classification number in Part I, not to pages in this catalog. These numbers are given in boldfaced type.

Analytical entries are introduced by the word *In* or the phrase *See also pages in the following book.* These give (1) the page numbers in the book where the material is to be found, (2) the classification number of the book.

Title entries are provided for most books. However, no title entry is given for non-distinctive titles, e.g., "Complete works." When a title of the book and its subject heading are so similar that both are not needed, no title entry is made. The same is true when the title of a biography is the name of the subject of the biography. In this case the book will appear under the name of the person about whom it is written, but with the name inverted.

For further directions for the use of this Index, see pages 8-10.
